

The Marvellous Order Form

Patient Information

About The Pumping Marvellous Foundation

Who We Are: The Pumping Marvellous Foundation is the UK's patient led, dedicated heart failure charity. Heart failure affects around 900,000 people in the UK and has major implications on the health economy.

What We Do: We provide support and information across the UK to people associated with heart failure, with particular emphasis on supporting patients to effectively self-manage their condition. We give the patient and their families a voice.

The charity seeks to raise awareness of heart failure across public, political and economic communities. We further seek to raise awareness of heart failure and support Clinicians to provide the optimum care for patients and their carers and families.
